

AI ENABLED EAP FOR CASTING & FORGING

HOW EAP IS EASY WITH FORMEZY?

Formezy - Beyond ERP for Casting & Forging

While ERP manages operations, Formezy (EAP) goes further - bringing agility, control, and real-time visibility to complex engineering processes. It unifies workflows, projects, and data on a single platform, enabling scalable and efficient operations across organizations of any size.

BEST CLOUD EAP SOLUTION

Formezy (EAP) simplifies complex engineering operations by enabling faster product configuration and delivering quick, accurate responses to customer requirements. Its flexible, cloud-based platform empowers businesses to build, adapt, and scale applications with ease - automating workflows and customizing processes to match specific operational needs.

EAP vs ERP: Simplifying the Future of Business Management

EAP (Enterprise Application Platform)	Category	ERP (Enterprise Resource Planning)
Flexible & modular structure	Architecture	Centralized & rigid system
Easily scales with growth	Scalability	Limited scalability
Drag-drop, highly customizable	Customization	Time & cost intensive
Quick & simple setup	Implementation	Long, complex process
Easy with other tools	Integration	Limited/complex integrations
Lower ownership cost	Cost	High setup & maintenance
Supports low/no-code	Development	Requires technical resources
Adaptive & responsive	Agility	Slow to change
Suited for modern needs	Industry Suitability	Best for traditional setups
Flexible with room to innovate	Standardization	Strict standard processes
Built-in & centralized	Document Management	Uses external tools
In-built collaboration tools	Communication Management	Depends on external tools

WIDE RANGE OF INTEGRATIONS
